

Custom Tailgates

Handy's aerodynamic louver design reduces drag and enhances truck appearance

Our custom louvered fifth wheel and straight tailgates offer a true form-fit design, while cutting wind resistance.

Made with heavy-duty, durable 16 and 20 gauge domestic steel and priced just right, our tailgates stand out over the competition.

Installation on your truck is quick and easy. Weighing less than factory models, our tailgates are contoured to fit full-size Chevy, GMC, Ford and Dodge pickups. Whether you're pulling a trailer or just want to give your truck a custom look, a louvered tailgate by Handy is the answer.

Proudly made in the USA.
