

Multi-Lift

The question isn't 'What can be done?' but rather, 'What can't?'

The Multi-Lift is all you need to get the job done right. The durable domestic steel tabletop design is the perfect fit for multiple repair projects, including push lawn-mowers, appliances, small motors, and garden equipment. The Multi-Lift features a 12" center opening for easy access to what's below the table top and five positive rotational locking working positions with 360° rotation. For easy loading and unloading, the Multi-Lift lowers to 5" off the ground and comes with a built-on ramp extension. An adjustable wheel channel helps reduce slippage. Throw whatever you've got at it, even the kitchen sink, and you'll see why the Multi-Lift is the answer for tackling multiple jobs. As with all Handy products, the Multi-Lift is proudly made in the USA.

Manual Multi-Lift Item 14691
Electric Multi-Lift Item 10738
