

# S.A.M. 1200

## When we say more, we mean more!

And that's exactly what you get with the S.A.M. 1200 from Handy. Revolutionized with zero-maintenance air bellows, the S.A.M. 1200 Air Lift features increased capacity (1200 lbs.) and height (39") as well as improved safety features.

The Standard 1200 features an automatic ratcheting safety mechanism with dual springs that create a positive lock as the lift is raised. With the automatic reset, there is no more worrying about the operator having to remember to set the safety bar. Built with heavy-duty domestic steel and finished with a durable powder coat finish, the Standard 1200 features a texture-black frame with gloss black accessories. We kept the features you love about the S.A.M. 1000, like the rear drop-out panel to make tire changes fast and easy. The same garage-full of accessories, like side extensions, jacks, and a cycle vise, that work on our S.A.M. 1000 will work on the S.A.M. 1200. When you're looking to do even more, look to the S.A.M. 1200 Air Lift.

Always American made, only from Handy.
