

Industrial 240 Lift

With a lifting capacity of 700 lbs., the Industrial 240 Lift from Handy positions your project at the right working level. This lift was designed to provide more comfortable working conditions and to reduce possibility of workplace injuries. The lift will increase labor efficiency, improve safety, and help eliminate bending, lifting, and excess fatigue.

The Industrial 240 Lift has a table top dimension of 24" x 48", which will raise loads of 700 lbs. to a height of 42" in 27 seconds. The table surface may be raised or lowered, with a convenient foot pedal, which leaves hands free to safely perform other tasks. The Industrial 240 Lift work table provides a safe and efficient means for an operator to lift a product or component to a desired height for assembly, positioning, stacking, conveying, and feeding applications. As with all Handy lifts, the Industrial 240 Lift is proudly made in the USA.
